

BC Spa Instant Face Lift & Manicure

The BC Spa is easy, fun and profitable. Your goal is to create the perfect environment for your guests to relax, have fun, sample exclusive products with clinical strength results and purchase these products to recreate this experience at home.

Think how much Any Time Money (ATM) you can make if each guest purchased an M.R.P. Daily Facial set, a 5-Minute Face set and the BC Spa Resurface Treatment!

To incorporate BC Spa Resurface products and BC Color into your spa, follow these simple steps to spa success. Below we explain how to do this treatment on your Hostess, but you can do it on any number of guests at your spa. (This does not permanently replace the Experience Station spa.)

1. Create a relaxing spa atmosphere by serving cucumber or lemon water and playing soothing music. Use your Spa Music CD in your Spa Tools Package.
2. Make your Hostess feel special as you indulge her in the ultimate relaxation treatment. Simply place the Therma del Sol® Apothecary Clarity Aromatherapy Neck Patch on her neck. Then put the warmed neckwrap on top of the patch.
3. Now, give your Hostess a BC Spa Resurface Multi-Acid Resurfacing Peel pad and have her swipe it over the right side of her face, using semi-circular strokes and avoiding eyes and lips. While she is doing this, explain the product and that it is the first step in the Instant Face Lift Treatment. Allow to set for 10 to 20 minutes.
4. While the Multi-Acid Resurfacing Peel is activating, have your Hostess experience Show of Hands® Instant Manicure.
5. Using the facial buffer, apply BC Spa Resurface Microderm® Abrasion to the right side of your Hostess' face, gently sweeping creme in small, upward motions for one to three minutes, avoiding eye area. Remove with warm wash cloth. Explain how the product buffs away the layers of dull, dead skin that has been broken apart by the Multi-Acid Resurfacing Peel.
6. On the right side of her face, apply the following:
 - a. Regeneration® Tight, Firm and Fill® Eye Firming Serum and explain how it works.
 - b. Regeneration Tight, Firm and Fill Face Creme and explain how it is working to complete the Instant Face Lift treatment.
7. Apply Regeneration® Extreme Repair Hand Therapy to your Hostess' hand to complete the last step of the manicure.
8. Demonstrate and explain the M.R.P. daily facial regimen.
9. Have each guest look at the remarkable difference between one side of the Hostess' face to the other. Discuss the value of the Instant Face Lift with multiple treatments verses getting a chemical peel, microdermabrasion, Botox® and Restalyne® injections at a day or med spa at a cost that could exceed \$600 per treatment.

Now you're ready to complete the steps to the 5-Minute Face on the reverse side.

BEAUTICONTROL®

BC Color 5-Minute Face

The perfect finish to your spa.

- Give your Hostess a special treat at the end of the spa.
- Book more spas. When you're done, say, "Who else wants a makeover? Book your spa with me tonight and you'll get one at your party."
- Add color to each spa smoothly and profitably.
- Show guests how easy makeup is to apply.
- Generates sales. These make great impulse buys.

Wet/Dry Foundation

Using the sponge included in the package, apply foundation over entire face and neck, including your eyelids.

For more coverage: dampen sponge before using.

BC Color Mineral Eye Shadow Trio

Brow:

Fill in your brows using either the medium or dark eye shadow shade. Apply with a brow brush or use the tip of your applicator that comes in the compact. Use short, light strokes, starting at the beginning of the brow to the arch. For the ends, use longer, feather-like strokes. Brush the entire brow to blend all strokes.

Eye shadow:

1. Apply the lightest shade, or highlighter, over the entire eye area from lash line to brow. This shade enhances eye features.
2. Apply the medium shade along the crease of the eye and blend.
3. Apply the darkest shade as close to the top and bottom of the lash line as possible. This adds a dramatic pop of color and depth to the eye. Use an eyeliner brush or the tip of your applicator to apply.

Concealer

Apply several dots of concealer under the eye area.

Using a sponge or the pad of your middle finger, tap it in (always tap, never rub).

Blend concealer so it looks flawless, not obvious.

Mascara

Apply two coats of your favorite SpectacuLash® for the thickest, longest looking lashes.

BC Color Mineral Blush

Sweep blush on the apple of your cheeks with an upward motion toward the hairline.

Blend with your makeup sponge for a natural glow.

BC Color Mineral Lip Color

Apply lip color to the top lip, working from the center out.

Next, apply to the bottom lip, sweeping lip color from one corner to the other.

Put on one or two coats for your desired look.
