

BEAUTICONTROL PRODUCTS THAT CONTAIN GLUTEN

Gluten is a protein found in wheat, rye, barley, and oats. Some people have a condition that may cause gluten sensitive enteropathy (also called celiac sprue or celiac disease)—a sensitivity to gluten. Individuals with this disease must avoid gluten-containing grains, which include all forms of wheat, oats, barley, and rye.

Intolerance to gluten is generally limited to products that are ingested, not those that are applied to the skin.

BEAUTICONTROL INGREDIENTS THAT ARE CONSIDERED "GLUTEN"

- Wheat derived
- Wheat protein
- Hydrolyzed wheat protein
