STEP 1 BC Spa Resurface Multi-Acid Resurfacing Peel

This clinical strength chemical exfoliator is packed with advanced multi-acids that loosen the "glue" that holds dead skin cells together. After cleansing and toning your skin, swipe a pad over your face using semi-circular strokes. Keep away from eyes and lips. Allow the product to soak in for 10 to 20 minutes.

STEP 2 BC Spa Resurface Microderm® Abrasion

This physical exfoliator removes the surface layers of the dead skin cells that have been loosened by the Multi-acid Resurfacing Peel. Use the facial buffer to gently sweep creme in small, upward motions for one to three minutes, avoiding eye area. Rinse and pat dry.

STEP 3 Regeneration® Tight, Firm & Fill® Eye Firming Serum

Apply to the area above the crease of your eyelid and below your brow and blend onto your eyelid, as well as to the under eye area and around the contours of your eye to immediately tighten and firm the skin, and plump and fill wrinkles, diminishing their appearance.

STEP 4 Regeneration® Tight, Firm & Fill® Face Creme

Apply a small amount to your face to immediately tighten and firm the skin. Unique Hyaluronic Filling Spheres® plump and fill wrinkles, diminishing their appearance.

STEP 5 Platinum Regeneration® Rejuvenating Eye Treatment

Apply patches under eyes for 20-30 minutes. This non-surgical eye lift delivers a powerful, time-released dosage of advanced ingredients to visibly reduce the appearance of fine lines, puffiness, wrinkles and dark circles, leaving you with immediate and long-term benefits.
