Just in time to save skin from the ravages of summer fun and sun! Power-exfoliate, hydrate, and rejuvenate from with BeautiControl!

**Salt Glow** #13460 \$25

**Hydrotherapy Mineral Bath** #13461 \$25

**Instant Comfort Gel** #13459 \$25

## Power-exfoliate with Salt Glow

**How it works:** Salt Glow buffs off dry skin, especially scaly spots, such as knees and elbows, leaving skin as soft as satin.

**Why you'll love it:** This light mix of skin-buffing sea salts and emollient-rich oils rapidly dissolves roughness, revealing sparkling, moist, smooth skin.

**How to use:** Massage generously onto clean skin. Give dry patches, like elbows and knees, extra attention. Rinse off with warm water, and feel the difference!

**How it's different from other products:** The main ingredient in Salt Glow is salt from the Dead Sea, which is a heavier grain that gives a power-exfoliation. It's a quick good-bye to dry, scaly skin! Warning: Use before shaving, as could cause stinging sensation on newly shaven skin.

## Hydrate with Hydrotherapy Mineral Bath

**How it works:** It replenishes moisture-starved skin with a signature BeautiControl blend of Dead Sea minerals and algae. Whether your skin is slightly dry, or very dry, Hydrotherapy Mineral Bath treatment rebalances the moisture content.

**Why you'll love it:** Dry skin is truly treated. It becomes soft and smooth, re-energized and conditioned.

**How to use:** Sprinkle two tablespoons of mineral powder into warm bath water. Let the powder dissolve thoroughly.

**How it's different from other products:** Hydrotherapy Mineral Bath is a unique moisturizing treatment that rebalances the skin's water content in addition to conditioning skin with essential minerals, nutrients and vitamins.

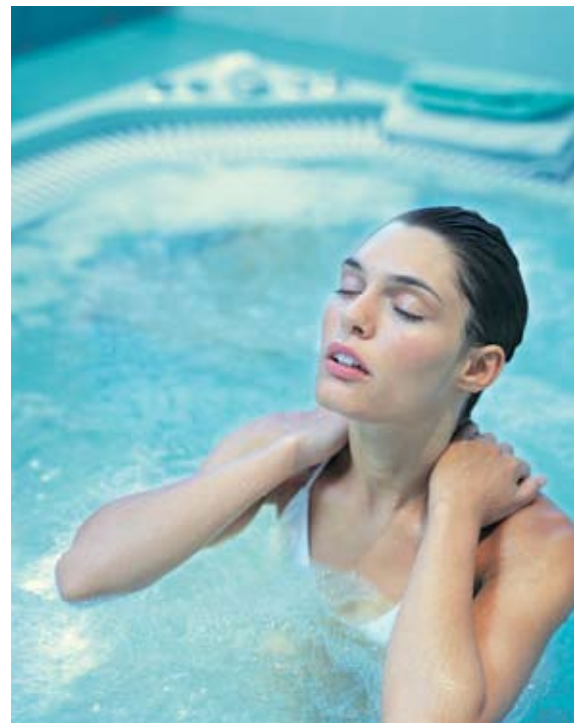

## Rejuvenate with Instant Comfort Gel

**How it works:** As you gently massage Instant Comfort Gel onto your skin, its fast acting ingredients penetrate the surface, spreading relief to sore, achy muscles and joints.

**Why you'll love it:** Your skin, muscles and joints will feel rejuvenated after applying this phenomenally fast working, non-greasy, marine-based gel. It works on contact, and relieves for several hours. Enjoy!

**How to use:** Apply to needed areas. Gently massage into the skin. Wash hands when you finish applying.

**How it's different from other products:** Instant Comfort Gel relieves tension from sore muscles and joints with lavish marine based ingredients of the Luxuries of the Sea spa treatment collection.
