

SpectacuLash®

Thickening Primer and Maximum Length Mascara

Go from drab

to fab

digitally enhanced photo

Dramatic results now. Even more dramatic results later.

Hot New
Applicator

How to use

Apply primer to lashes in an upward sweep and allow to dry. The primer separates and thickens the lashes with silk fibers and lash conditioning agents. Next, apply mascara to lashes, covering the primer. The unique comb-like brush coats and helps separate the lashes.

#15003 Black

#15005 Black/Brown

\$18.50

Totally new and unique

Three great products in one:

1. Maximum length mascara
2. Thickening primer
3. Stimulating lash conditioner

2 steps to look-at-me lashes

STEP 1: Thickening Primer

- Silk fibers and lash conditioning agents take your lashes to new lengths and fullness.
- Primes the lashes so mascara adheres for longer wear and extreme lengths.
- Separates and adds dramatic definition to each lash.

STEP 2: Maximum Length Mascara

- Unique lash lengthening formula provides maximum density to each lash for a fuller look.
- Provides instant volume and length through a combination of film formers and natural waxes that attach to lash tips.
- Ultra conditioning silk proteins, vitamins A and E and Panthenon create body and volume.
- Deeply coated, reflective pigments enhance mascara shade and shine.
